Stronghold Crusader Extreme HD Free Download (GOG) for PC from preinstalled direct link.n Download the game instantly and play without installation. Thank you very much!!!I downloaded the game, installed it, everything is fine, BUT .. Already after 5 minutes it pops up "At the moment the game is at the testing stage ... error code 239". What should I do? I don't know anymore... With the same success, you can wait for anything! What to do? Recently a new version of the game was released and I can not find a solution to this problem. You can play it, but all the same, this error flies out for 20 minutes, and after 5 minutes it disappears. With what it can be connected? My dream to play this game is long gone. The game will be very delayed by those who write that there are many levels in it! But no, it's not! And the saddest thing is that it has a lot of errors and bugs that you will experience for yourself. Somewhere they will be more, somewhere less. In general, some continuous flaws! I would like to thank the developers of this wonderful game for making so many interesting and exciting adventures! The game keeps you in suspense throughout the gameplay and remains one of the best free We care about the security of your personal data and therefore never offer you to enter a login and password, data that has already been entered into the system.
