Eject and close multiple drives at once using keyboard shortcuts Managing multiple disc drives can get quite confusing, and you can waste valuable time ejecting discs and closing the drive doors manually. A software solution may be a better choice in some cases, as it enables you to continue working without interruptions. Anxron Ejecty 2022 Crack is a fairly simple piece of software that provides you with an alternative method of managing your disc drives. It is very easy to use, as convenient hotkeys can be used to trigger various actions, and it can be minimized to the system tray. Unobtrusive application that rests in the system tray When it is no longer needed, Anxron Ejecty can be minimized to the system tray to ensure it does not get in the way of your other activities. You can specify which action should be triggered when clicking this icon, such as bringing up the main window or ejecting the default drive. The optional keyboard shortcuts can be used even when the application is minimized, so it is possible to manage your drives while keeping the program hidden at all times. Eject or close multiple drives at once Naturally, Anxron Ejecty may not be especially helpful if there is only one disc drive installed in your computer, as it should be quite easy to manage a single device. Nevertheless, ejecting it with a single hotkey is very convenient, as is creating a shortcut on your desktop in order to perform this action with a couple of mouse clicks. If you have to deal with a large number of drives, however, Anxron Ejecty is likely to prove invaluable, as it can save you a lot of time and effort. Useful application for organizing disc drives more efficiently Overall, Anxron Ejecty is a nifty software utility specially designed to make the task of ejecting and closing multiple disc drives a lot easier.
