sue 07-24 11:43 AM I just had an experience with TCS. How nice to get an error code at the very start and then A prompt to try! What if people just ignore it? Atleast they have recieved an error code. Hello Friends, I have a question of my wife please help her before she gives me her problem. My wife told me that her Parent is visiting this month and she will be granted 10 days visa. I know its a big problem but then she is not prepared to loose \$\$\$ and she said she will try to go anywhere else since U.S is treating its own people very badly. I have lost all my passion towards my work due to this. Please help me with the requirement I need. Thanks in Advance! If your wife has OPT application, she can't give you any hint or any information. If she does not have OPT, she should apply for immigrant job, which is a lot easier for her than OPT. I would recommend a IT job in Utah. I have an IT friend in the state who has been working in Utah for 4 years. I know it's her parents, I know they have more power than her. But she does not want to loose \$10,000 and I am in the same position and I can not think of anything else to do. It's unfair for all of us. She did not plan this. She did not plan this. She did not plan this. What am I to do? :rolleyes: I just wanted to say thank you and I would appreciate any suggestions or information on things I can do. Please help me on this. what bothers me is when someone say something bad about EB2, I get very emotional. I read all the threads and I go to site where EB2 is promoted and I get mad. So I say what can we do? How we can turn this over. I would like to help my wife. She is very intelligent and she has life experience and she is thinking of becoming a teacher. So I would like to point out on how we can turn this over. What we can do I do not know how to do this. I would appreciate any help. Thanks for your response. I guess we have to face this somehow. Thank you for your help. All I can do 595f342e71
