Easy to play and yet hard to master, imagine yourself inside the Happy Prince's castle, and make matching of pictures and trying to connect them to each other to get the prize! Your children will just love these wonderfully Fairy Tale pictures and will improve their spatial skills while having fun! Gameplay: When you click the picture, the number of the picture, the score, and the guide to the right on the screen will change. These

changes will help you connect the numbers to each other in the correct order to bring the prize to you. Press the correct button to match the numbers, and each time you can be sure to improve your game. Control: With a touch of the device, let your children run the game on their own, and soon you will be able to see their skills. Problems and Solutions: Your children will begin with 50 pictures as a trial game. From time to time, you will need to tap that the picture changes. If the number of correct connections in a picture in 15 tries you can only get more pictures. Each time you connect more pictures, you will get a slight score increase. The purpose of this game is to help your children to develop their mathematical and spatial skills. If there are any problems when connecting a picture you can tap the Help button on the screen. While the help button is displayed, you will get the correct

solution to the picture. No copying, sharing or distributing prohibited! All rights belong to the developer of the game. A Better Day: The girl who is an end-consumer of the product is happy to tell about her experiences with this game:

- In the past, I could not imagine that I could master the math skills, however, I can see that with this game, I can do it in a while.
- The game's creator made it really easy to learn and use.
- I am so happy to have a match to play around in the kitchen table in the evenings!
- I feel that I have been allowed to play with a math task...

Parental Control: You can take advantage of the parental control settings to help you better manage the game. You can choose a control that, for example, allows you to limit the length of time or the number of tries that your children can play. You can also disable visualizations and features that could disrupt the game. For more details, tap

on the Help button on the main screen.

Forward Sven Baertschi was not in the lineup. "Tobias was feeling better," Baertschi said. "He was training today. I guess he was close." Edler was cleared to play last week but didn't travel to Calgary, where he was diagnosed with an inflamed appendix. He was in Vancouver, where he was to start pre-season training, the night he was diagnosed. Edler has been training but hasn't been able to skate or play in a regular-season game. Edler had

a lower-body injury on Oct. 22 in Vancouver and played the following game against Phoenix on Oct. 28. He played in the final four games of last season after returning from a lower-body injury, and had an assist and a minus-2 rating in 11 playoff games. Ekman-Larsson centering Arizona's defence corps is starting to gel. Erik Karlsson is starting to form a partnership with Shane Doan and Oliver Ekman-Larsson is finally showing he's the playmaker this team needed. Karlsson and Ekman-Larsson got back into a rhythm after the Arizona players spent their annual break at their golf course, and it showed when the Coyotes went toe-to-toe with the Kings in the second period of Tuesday's game. Both are big, strong, physical defencemen, with Karlsson especially adept at stealing the puck away from forwards and Ekman-Larsson a strong skater with a great stick. Ekman-Larsson's shot
