AutoCAD supports its own programming language, called ADLC. ADLC is the standard scripting language used in AutoCAD. In 2012, UGS Software introduced ADSTART, a static typed language for scripting AutoCAD that supports MATLAB-like programming, with which the user can develop forms in static typing and run those forms with dynamic typing. ADSTART is the first scripting language for AutoCAD to support static typing and dynamic typing at the same time. AutoCAD has an API called AutoLISP, which provides automation for AutoCAD. Different commands: Cut, Copy, Paste, Scale, Print, Fit, Move, etc. AutoCAD Architecture & Civil 3D AutoCAD Architecture and AutoCAD Civil 3D are application

extensions to AutoCAD. AutoCAD Architecture extends AutoCAD with features targeted at the architectural, architectural engineering, building design, interior design, and space planning industries. AutoCAD Civil 3D is a product extension used to design Civil Engineering and Utility Infrastructure projects. It is also used for producing Construction Project Cost Models. AutoCAD Civil 3D is based on the newest version of the popular open source GIS software, Geospatial Information Authority - Ground Information System. GIA-GIS is a data integration and visualization platform used for automated processing, management, analysis, and display of spatial data. History In 1979, Autodesk was founded in Silicon Valley by six computer scientists, one of whom was the founder of Silicon Graphics. Autodesk created a computerized drafting system, named Computer Drafting System (CAD), in 1979. AutoCAD was originally designed by Ron Bultje and Bill Tierney, at the request of Ralph Haberkamp, a mechanical engineer at Hewlett-Packard. Bultje and Tierney left Autodesk in the 1980s and started a rival company, Autodesk Systems, Inc. Autodesk sued Autodesk Systems, claiming Autodesk Systems had not paid royalties to Autodesk.
